

ORDER FORM – ANALYSIS OF SHED HAIRS

The lab charges a fee of \$ 95+ tax per sample for hair analyses. The types of hair will be analyzed (anagen, dystrophic anagen, telogen). This type of analysis is appropriate for patients who wish to understand the exact types of hair that are being lost from the scalp and to clarify if particular hairs they are seeing are abnormal. Please submit 1 to 100 hairs. Do not use this form for submitting standardized hair collections.

Please staple this form to the bag of hairs you wish analyzed.

MAIL TO : Donovan Hair Clinic. PO BOX 125. Whistler BC V0N 1B0

ALLOW 4-6 WEEKS FOR RESULTS TO BE SENT DO YOU.

CONFIRMATION OF REQUEST FOR ANALYSIS

I am confirming that I would like to submit hair samples for analysis. I understand the fees associated with each test. I understand that the **fees cover the analysis of the hair sample and the generation of a formal report by the lab.** I give permission to have my credit card billed \$95 + tax for each sample I submit. I understand that the fee does not cover Dr. Donovan's professional advice on how my treatment plan should be modified based on the results – and this would require an actual follow up phone. I understand the fee for this call is \$250.
